# YAMC 2023

Siena (Italy)  
18-22 September 2023

The Third edition of the Young Applied Mathematicians Conference will be held in Siena. It targets MSc students, PhD students, and Postdocs interested in the fields of Numerical Analysis, Machine Learning, and Statistics.

Every conference day will be opened by a plenary talk that will be given by senior lecturers. The remainder of the session is dedicated to the participants, who will be given the possibility to present their work as short or long presentations, depending on how much time the speaker needs. To allow everyone to talk, two parallel sessions will be organized, one devoted to Numerical Analysis and one devoted to Machine Learning and Statistics.

## PLENARY SPEAKERS

**Mauro Barni**, University of Siena

**Giovanni Russo**, University of Catania

**Maria Lucia Sampoli**, University of Siena

**Hendrik Speleers**, University of Roma "Tor Vergata"

**Stefano Zampini**, KAUST

## ORGANIZING COMMITTEE

**Gennaro Auricchio**, University of Bath

**Giuseppe Alessio D'Inverno**, University of Siena

**Caterina Graziani**, University of Siena

**Veronica Lachi**, University of Siena

**Francesca Locatelli**, University of Pavia

**Gabriele Loli**, University of Pavia

**Lorenzo Zambon**, IDSIA (Switzerland)

## VENUE

University of Siena  
Presidio San Niccolò, Via Roma 56, 53100 Siena
